

Empowering Virtual IT Labs with Azure AVD

Revolutionizing Azure Virtual Desktop for Training, Demos & POCs

What is CLOVER ?

**Virtual Labs
Powered by Azure
AVD**

**Easy &
Seamless LMS
Integration**

**User-Friendly
Virtual Lab
Management**

**Advanced AVD
Management &
Scaling**

Clover-VTL (Virtual Training Labs) is an innovative SaaS solution that transforms Microsoft Azure Virtual Desktop into an immersive, education-focused platform.

What Makes Clover Different?

Clover combines AVD's enterprise-grade infrastructure with native LMS integration, empowering educators and administrators to optimize virtual IT lab experiences.

- ✓ Cost Optimization
- ✓ Enterprise-Ready Solution
- ✓ Learning-Centric Design
- ✓ LMS & MS365 Integration

How CLOVER Helps You ?

1

Benefits for Administrators

Clover empowers administrators by reducing costs with advanced auto-scaling, simplifying AVD management, and unifying AVD, Microsoft 365, LMS, and virtual labs into a seamless platform with insightful analytics.

- **Optimize Resources & Costs**
- **Simplified IT Management**
- **Future-Ready Learning**
- **Comprehensive Insights**

2

Benefits for Instructors

Clover helps instructors focus on teaching by enabling quick virtual IT lab creation directly from the LMS. With Microsoft 365 integration, real-time collaboration is seamless, while insights and analytics make tracking student progress effortless.

- **Focus on Teaching, Not Management**
- **Seamless Collaboration**
- **Track Progress and Ensure Success**
- **Customize Virtual Training Labs**

3

Benefits for Students

Clover empowers students with interactive hands-on labs that build real-world skills and confidence. Access labs anytime, anywhere on any device, and enjoy uninterrupted learning through seamless LMS integration.

- **Learn by Doing**
- **Instant Access Anytime, Anywhere**
- **Build Confidence with Practical Skills**
- **Uninterrupted Learning**

Explore how Clover-VTL (Virtual Training Labs) delivers hands-on virtual IT labs, empowering learning with seamless LMS integration, Microsoft 365 collaboration, and cost-effective solutions.

Clover Features

LMS Integration

Clover is an LTI Tool Provider compatible with any LTI-compliant LMS. It enables seamless LMS integration.

Image Management

Easily create and manage customized and preconfigured images (Windows 10 and 11) tailored to your training and labs.

Application Management

Dynamically assign essential applications to each virtual classroom, ensuring seamless functionality and collaboration.

Host Pool Management

Clover assigns a dedicated AVD host pool to each virtual classroom, ensuring optimal resource allocation and performance tailored to the group's needs.

Collaborative Tools

Clover enhances collaboration by dynamically integrating Microsoft 365 tools into virtual classrooms.

User Management

Clover provides an intuitive interface for managing users with ease. Users can be synchronized from LMS or AD Directory.

Classroom Management

Clover streamlines managing virtual classrooms—groups of students and instructors assigned to specific labs.

MS 365 Integration

Seamless MS365 integrates, enabling administrators to dynamically assign licenses to user groups.

Automated scaling

Cost-effective resource management by automatically scaling desktops in a host pool up or down based on demand, eliminating payment for idle resources.

Analysis & Reporting

Clover provides powerful analysis and reporting tools to monitor lab usage and track associated costs.

Everything You Need for Virtual IT Labs

Empower hands-on learning with a robust platform for virtual training labs.

Flexible Pricing for Virtual Labs

Choose the right plan to scale hands-on learning, optimize costs, and deliver seamless virtual training with Clover

- ✓ All Standard features
- ✓ Customized Branding
- ✓ Power BI for AVD Insights
- ✓ API integration

SEAMLESS LMS INTEGRATION

CLOVER seamlessly integrates with the majority of LTI-compliant LMS platforms available in the market

CLOVER

Clover vs Azure Virtual Desktop

KEY DIFFERENTIATORS

Features	Azure Virtual Desktop (AVD)	Clover-VTL	Impact
Ease of Setup	Complex , requiring Azure expertise	Simple , with intuitive tools for seamless deployment	Clover significantly reduces setup complexity, allowing educators to focus on teaching instead of IT.
LMS Integration	Manual or unavailable	Native integration with major LMS platforms (Moodle, Canvas, ..)	Clover creates a unified platform for launching labs directly from the LMS.
Microsoft 365 Collaboration	Not inherently integrated	Dynamically assigns Teams and OneDrive to virtual classrooms	Ensures collaboration tools are pre-configured and ready to use upon connection.
Host Pool Management	Manual , requiring advanced configurations	Automated assignment of host pools to virtual classrooms	Simplifies resource allocation and ensures optimal lab performance.
License Management	Manual	Dynamically assigns Microsoft 365 licenses to users	Saves time and eliminates complexity for administrators.
Cost Optimization	Multi-session support, basic autoscaling	Enhances autoscaling with advanced features to reduce idle resource costs	Clover optimizes AVD's cost-saving mechanisms to minimize expenses.
User Management	Requires custom configurations	Intuitive interface for creating, synchronizing & managing users	Streamlines user management, reducing IT overhead.
Support for Education	Enterprise-focused	Purpose-built for education and training	Clover caters specifically to the needs of educators, students, and administrators.
Application Assignment	Manual	Automatically assigns required apps to virtual classrooms	Simplifies lab preparation, saving administrators significant effort.
